

Tissue Culture Labs

for propagating virus-tested hop material

The following list is provided as a courtesy and convenience for the propagation of virus-tested hop materials. Inclusion on this list does not constitute an endorsement by the National Clean Plant Network (NCPN) nor Washington State University (WSU). NCPN and WSU cannot guarantee the genotype or virus-status of material provided by these independent, privately owned entities.

Note: Any transport of plant material across state lines must comply with state quarantine regulations.
